## Message from the Principal

*Time, spinning itself to its axis, has brought us to Dashain of 2072. The year 2072 proved itself to be the year of hardship and misfortune. May be it is the very year which lies at the sharp bend of the road from where we take a turn to go ahead along the path of progress and prosperity. After the devastating earthquakes of Baishakh 12 and the series of vibrations followed by it, we are doomed to face the face the Madhes movements and the undeclared blockade of by India in necessary materials including petrol and diesel. Obviously, schools and the educational sectors couldn't be remained untouched by these unprecedented events in the lands of Himalaya. In spite of these several obstacles we have been able to manage to continue the process of teaching reading activities as much as possible with our efforts.*

*During the period of last one month we have done several activities in order to promote the educational quality of the school. We conducted trainings for the parents and guardians to facilitate them to manage their kids at home. We sent two students to Thailand as representatives from our school to take part in the workshop of international students' cooperative alliance. Internally, we have made several plans and strategies to improve the competency of the students.*

*The second term exams are going to be over by the 1<sup>st</sup> of Kartik, we are very sorry for the inconvenience caused by petroleum shortage regarding transportation of the students. The cooperation and well wishing of our students' guardians are always be appreciated and respected by the school management. By the way, writing this message, the result of class 12 has been published. I would like to express my heartiest congratulations to the successful students and wish them every success in their future life. Hoping that every problem and every dispute regarding politics will be solved by the end of Dashain vacation, and there will be peace and harmony among the Nepalese people. May Goddess Durga Bhavani bless all of us. Happy Vijaya Dashami 2072!*

**EDUCATION**

Education has got a great price,  
 to be good we should read nice.  
 we cannot get education easily,  
 to get education we should work hard  
 Education makes successful future  
 It can be achieved only be labor,  
 to get education we go to school  
 after getting it, don't be a fool  
 Education makes a person wise.  
 don't think it has small size,  
 Great person are made by education  
 and all humans are god's creation.

**There isn't anything without you**

I miss your smile  
 I miss your laugh,  
 I miss your everything  
 And the happiness which you give  
 I hope you really know  
 How much I truly care  
 Because when I'm away from you  
 It's like something isn't there  
 I hope you also take my care  
 I know you will come soon here  
 From that day we will take each other's care  
 There isn't anything when you aren't here.

**Why school uniform is important !**

School and colleges have their own rules and regulations. Every one, teachers or students, has to follow them. One of them is that student have to wear a certain types of dress, that is same coloured, shirts, paints or half paints for the boys, In the same way, girls either have to wear the same shirts and skirts of the same colour.  
 School dress makes all students look similar. No students can get chance to show off. Nobody can show their superiority or inferiority. When the students walk along the roads or streets, they show the identity of a school. Students have to be disciplined. It helps them to build up their personality. Students in school dress might get more sympathy than in other time, so they can get help. So I think school dress is necessary for the students.
